DETAILED ACTION

Receipt is acknowledged of the information disclosure statements filed 02/26/03, 03/05/03, 03/17/03, and 09/17/03. The IDS filed 09/17/03 could not be considered since the PTOL-1449 was not properly filed (most of the information on the form was never filled out). Applicant is requested to resubmit the form with all the information provided as indicated.

Response to Arguments

Applicant's arguments with respect to claims 3-10 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 3-5, 7-10 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by WO 02/094254A2. (Goldberg et al).

Goldberg et al disclose a pharmaceutical composition intended for oral use containing capsaicin. The capsaicin serves as a deterrent to the intranasal or oral abuse of the composition. This served to deter abusers from snorting, injection or ingestion (see Abstract). Opioids such as oxymorphone and oxycodone (Schedule II controlled substance) are discussed by the patent). Goldberg et al therefore clearly anticipate the claimed invention.

Claim 6 is objected to as dependent upon a rejected base claim. Claims rewritten to claim an oral pharmaceutical containing a bitter substance of claim 6 would be in condition for allowance.

Conclusion

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 03/05/03 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1615

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
